One quick intraoral scan and you will be on your way to complete protection from grinding and clenching.

**WE USE
STATE-OF-THE-ART
SCANNING FOR LESS
CHAIR TIME AND
NO MORE MESSY
IMPRESSIONS!**

WHY SHOULD I GET A CUSTOM-FIT OCCLUSAL GUARD?

1 PREVENTS WEARING OF TOOTH ENAMEL OR EXISTING DENTAL RESTORATIONS

Enamel wear causes tooth sensitivity. Occlusal guards also provide protection for existing dental restorations like fillings, crowns, and bridges.

2 IMPROVES QUALITY OF SLEEP

A good night's sleep is everything! Occlusal guards improve sleep quality which impacts other aspects of your well-being.

3 RELIEVES TMJ DISCOMFORT AND HEADACHES

Occlusal guards are custom-fitted and tailored to your bite and jaw movement patterns to relieve TMJ pain.

4 PROVIDES JAW STABILIZATION

Occlusal guards provide jaw stabilization, and also promote proper alignment, strength, stamina, and mobility—especially during exercise.
